

AdvanceCare

Life Systems Services, Point-of-Care Agreements

We get the point: **Evolution**

Staying at the leading edge of patient care is critical to your forward-thinking institution. You want access to resources that will keep your skills and capabilities on an upward trajectory. Continuous upgrades. Customized technical training. Responsive service. Backup solutions.

Advance to meet the needs of an ever-changing workplace

- **Technology upgrades†** — Software upgrades will help you stay ahead of the curve. This package offers software upgrades that include standard new features and enhancements. Hardware upgrades are available at an additional cost.
- **Next day repair*** — With an AdvanceCare™ service agreement, you can depend on an aggressive repair cycle. Our team of experts will work to make your equipment operational no later than the next day.
- **Next day critical parts*** — A centralized inventory of top critical repair parts helps ensure you receive the parts you need no later than the next business day.
- **Loaner equipment*** — If your patient monitor or modules cannot be repaired on-site, we will provide loaner units within 24 hours.
- **Technical support** — You can rely on exceptional telephone service, including 24/7 direct access to technical expertise.

Enhance your AdvanceCare package with these flexible offerings

- **On-site leased loaners** — To minimize service disruptions, loaner equipment for your entire anesthesia machine is available on consignment. Store fully operational replacement equipment on-site.
- **Two-day off-site technical training** — Improve competencies in the basic operation and troubleshooting of equipment. This “first responder” training, designed for anesthesia technicians and biomedical engineers, includes problem simulation and hands-on practice.
- **Environmental tests** — Our trace gas analysis and room air exchange testing services can help you meet regulatory requirements - and help ensure a safe facility for staff and patients.
- **Vaporizer efficacy tests** — Verification of vaporizer output.
- **Documentation support** — Ready access to the tools and resources you need to independently repair or maintain equipment in-house. Gain access to the current technical reference manuals, latest planned maintenance procedures as well as technical and marketing bulletins, as they are issued.
- **Preventive maintenance** — Keep your equipment in good operating condition and minimize downtime. Schedule one to four preventive maintenance visits a year with our service technicians.
- **Service parts and labor** — Reduce unanticipated maintenance costs. This program encompasses all parts (including freight) as well as labor, travel, mileage and other expenses for planned maintenance and repairs.
- **Depot repair** — If it is necessary, we will repair or service your equipment at our off-site depot location and return it quickly to you.

At-a-glance

Package features	AdvanceCare
Technology upgrades	Software upgrades included (hardware upgrades available at additional cost)
Equipment repair	Next day

Life Systems Services Value Promise

Fast service response time — With over 180 local Field Service Engineers, we ensure fast response times and local service.

High technical competency — Our engineers average 12 years service experience and remain up-to-date on new equipment and technology.

Full parts coverage — We only use GE Healthcare parts. No substitutions. Our full parts coverage option maximizes equipment performance with predictable life cycle costs.

Clinical and technical education — Excellent support and training helps customers provide better patient care.

A team of professionals who care — When surveyed, 95% of Life Systems Services customers would recommend GE Healthcare service to a colleague.

At GE Healthcare Clinical Systems Services, we help you get to the point of care.

Every day 15 million patients around the world are touched by what we do.

Because of this, we know that every interaction counts, and that your reputation is your single biggest asset.

And at GE Healthcare, we thrive on transforming essential services into extraordinary outcomes for your people, processes and products.

† Ventilation modes are excluded, as are any hardware needed to support software upgrades.

* Calls must be placed before 4 p.m. local time, Monday through Friday, to receive next day repair service. If call comes Friday, we will commit to fixing your machine by the following Monday.
